

Siem Reap, Cambodia, **November 2016**

Academic Year 2016-17

This newsletter is to share the new academic experience we are going through, an experience full of challenges of many types, which we are gradually solving one by one.

JAVI SCHOOL - JS

THANK YOU to the generosity of the **FONS SOLER Family**, from Spain, the **JAVI SCHOOL** in The Children's Land - DEI KOMA was built - these fantastic facilities were inaugurated on March 3, 2016.

The first classrooms were inaugurated by **Lurdes**, a **teacher of English and Spanish**. We started with the acquisition of material, new budgets and most importantly, interviewing candidates to teach at our facilities and to advertise to attract students.

As of today we have achieved the following:

- Kindergarten from 3 to 5 years.
- Grades 1, 2 and 3 of the Khmer curriculum.
- English for children and adults.
- Spanish for children and adults.
- Computing.
- Library.

A total of seven teachers, six Cambodians and one foreign teacher, make it possible for all these subjects to be taught with the necessary quality.

We have opened the doors for students from the surrounding area, not only residents of the Children's Land-Dei Koma. Currently there are a total of around 100 students who benefit from the classes taught in the above mentioned subjects.

COMPUTER SKILLS

FUTURE BRIGHT INTERNATIONAL SCHOOL - FBIS

For those students who require further study in course 4 to year 12, they continue to attend **Future Bright International School-FBIS.**

DON BOSCO - DB

During this academic year we also have two of our young adults studying at **Don Bosco Hotel School**, studying various subjects related to tourism and specializing, one for the second year in the **Reception** section and another for the first year in the **Culinary** section .

Also this year we have graduated S. in this same technical school – very proudly he has been recognized as one of the most outstanding students of the last two years in the Reception department. In the images, already being part of his work at the same **Hotel Don Bosco**.

Con **Cristina Cifre** durante su visita a las instalaciones de Don Bosco.

Many THANKS to all the **Benefactors** who participate in **supporting the children and young people** who live in The children's Land-DEI KOMA, both in the classes taught at Javi School-JS and in the classes taught at Future Bright International School-FBIS.

Many THANKS to all the people who participate in supporting the **salaries of the teachers** in **JAVI SCHOOL**, since currently with the rates that are paid by the students, is not enough, since we are in promotion with very low rates. We expect that by the end of 2017, all costs arising from JAVI SCHOOL, will be sustainable with the income generated.
