**BACK TO SCHOOL IN DEI KOMA-The Children's Land**

Notebooks, pencils, compasses, ink, blackboards, cases and a long list to complete all the material we have incorporated for the new academic year.

**Receiving new material.**

We have incorporated new bicycles to our fleet. Those who have been pedaling the longest, have been the lucky ones to renew their most precious means of transport.

With great enthusiasm they return to school. These smiles say it all. Words are unnecessary.

Meeting point at the door of the house, before leaving in the morning for school. They pedal together towards their education at **Future Bright International School-FBIS**.

Meeting point for the youngest who study in the school we have in our center, **JAVI SCHOOL-JS**. Our **Nursery** and **Courses 1 to 4**, run every day from **Monday to Friday from 7 to 11** in the morning.

At **JAVI SCHOOL-JS**, in the afternoon, from **1 to 9 P.M**, **English, Spanish and Computer classes** are taught.

Highly qualified teachers are responsible for education and enjoying it.

## BACK TO SCHOOL IN THE COMMUNITY

We have also reached the young people and children that we help in the community and are most in need, to take them school materials, school fees, health and more. They live with their families and although they are humble, they are free from risks that would make them vulnerable. They do not suffer any abuse, families are poor but they take care of their children so that nothing bad happens to them. We go to make sure education, a tool that will open doors for them in the future, it is guaranteed.

Good physical condition is very important. Vision checks to make sure they are well or they need corrective lenses.
