

Siem Reap, Cambodia, **24th December 2017**

Dear **Benefactors and Friends,**

... And again December arrived, again concludes a year that has been full of great moments, unforgettable stories, days with emotions of all colors.

When the objective is to help others to improve their living conditions, and when these others are as vulnerable as the children and young people or the elderly, then improving of their living conditions becomes an objective, for which we must put all the strength and the impetus to achieve them. Taking advantage of the occasion that offers us this last month of 2017, **to say to you THANK YOU**, because without your support it would not be possible, **THANK YOU** for being there, **THANK YOU** for walking the path with us, **THANK YOU** for letting us enter inside your life and, above all, **many THANKS** for being part in ours, because **it is an honor and a pride.**

Each time I sit down to develop a newsletter, every time I compose a topic or share a situation, it requires a certain concentration so that it is an issue that reaches everyone, and it is not an easy task, since here there is a continuous shaking of Stories and moments, choosing which to transmit and share. Therefore, now I have **considered sharing many images of different stories and moments lived throughout 2017.** This newsletter will have a different layout, then a miscellaneous of images and notes will come, reminding us moments of a 2017 that begins to walk towards its last days and that we want to say goodbye with a lot of tenderness **wishing you all the best for 2018 that is walking with firmly steps.**
